

## Disc Pendant

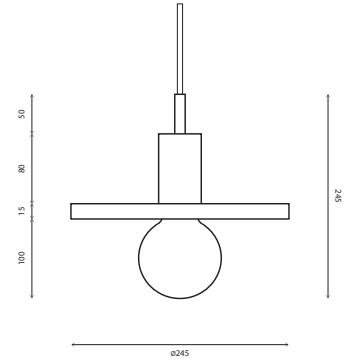

Disc is a contemporary and natural alternative to pendant lighting. The attraction lies in its simplicity, yet its functionality is without compromise. Disc is available as an individual pendant with rod or braided suspension cable, a series of pendants connected via horizontal connecting rods, or multiple runs to create a grid system. A custom wall mount option is also available upon request. Its versatility also extends to its finishes making it suitable for retail, hospitality, residential and commercial applications. Black, white and solid brass are the standard finishes however custom colours are available on request.

**IP20**
