

Nastro

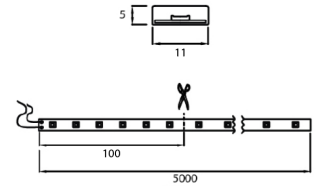

Nastro is a flexible LED strip that combines versatility and power. There are two wattages available depending on the application: 7.2W/m and a high power 17.3W/m version with IP67 protection in 3000K colour temperature; 4000K is available on request. A variety of accessories allows the Nastro to be used in many applications. Ideal for indirect pelmet lighting, under bench and cabinets installation and under canopies and entertainment areas.
