Structure composed by a canopy and metal cable holders for ceiling anchoring coated with epoxy powders and by six suspensions composed of a painted metal collar on which the two different shapes of blown glass are hooked. Diffuser available in opal white or smoked glass. E27/E26 version available only with opal white glass.

ABOUT

Collection of lamps inspired by the classical shapes of Murano diffuser usually used as decoration anywhere in a house; elegant spherical cruet apparently fragile yet very robust and functional. These lamps can have the connection in copper, brushed brass or painted, while the diffuser is made by blown glass opal white glass or fumè with harmonious and decorative shapes. Versatile, elegant and robust, these lamps can be positioned on the floor, on the table, ceiling, wall and hanging, both in one-unit version or in the chandelier one with four or six elements. These lamps give class and sophistication to any location, whether it be sober or lavish.
