Insulation class 1

Degree of protection IP40

Finishes

C74 Sand black + C41 Brushed

brass C74 Sand black + C99 Copper

Structure made of a metal base for wall mounting painted with epoxy powder coating and two domes (external and internal) that create the double color effect. Clear double-wall borosilicate glass Ø160mm

ABOUT

Collection of neo-vintage metal lamps with a double-sided diffuser in borosilicate glass. The metal domes (one internal and the other one external) have the internal side with different colors or finishing; they can be painted or finished in polished brass and bright copper, thus to create different textural combinations. The collection presents hanging lamps, floor lamp, table lamp, wall and ceiling. The hanging and wall lamp version are provided with a further G9 source located in the lower part of the lamp.
